

RTL8771H/G Series

General Description

- RCP Radio Co-processor
- Thread RCP
- Supports Android/Linux Host

RF Performance

- Tx Power: 0/4/7.5/14 dBm adjustable (refer to datasheet for details)
- Rx Sensitivity: -102dBm
- Fast AGC control to improve receiving dynamic range
- Max transmit power: 14dBm (refer to specific part number)

Interface Description

- Supports UART (RTL8761CTV)/ USB (RTL8761CUV) interface
- Supports USB RTL8771GUV
